## Overview

**Clone**
RDR34  
**Isotype**
Mouse (BALB/c) IgG2b  
**Immunogen**
Rabbit leukemic B cell line  
**Specificity**
Rabbit RLA-DR  
**Alternate Name(s)**
MHC Class II, leukocyte antigen

## Description

The monoclonal antibody RDR34 reacts with RLA-DR-transfected cells but not with RLA-DQ-transfected cells. In normal adult rabbits, the antibody reacts with 50-60% of peripheral blood leukocytes and splenocytes. It has also been reported that the antibody stains lymphocytes in the thymic medulla and some cells in the cortex, periportal cells in the liver, and synovial lining cells (e.g., infiltrating macrophages) in inflamed synovium. DRα transcripts have been detected in appendix, bone marrow, spleen, and to a lesser extent in lymph nodes, lung, liver, and other organs.

## Applications

- **FC – Quality tested**
- **IHC-FS – Reported in literature**
- **IHC-WM – Reported in literature**
- **IP – Reported in literature**

## Working Dilutions

**Flow Cytometry**
- FITC and BIOT conjugates: ≤ 1 μg/10⁶ cells
- PE conjugate: ≤ 0.2 μg/10⁶ cells

For flow cytometry, the suggested use of these reagents is in a final volume of 100 μL.

**Other Applications**
Since applications vary, you should determine the optimum working dilution for the product that is appropriate for your specific need.
Handling and Storage

- The purified (UNLB) antibody is supplied as 0.5 mg of purified immunoglobulin in 1.0 mL of borate buffered saline, pH 8.2. No preservatives or amine-containing buffer salts added. Store at 2-8°C.
- The fluorescein (FITC) conjugate is supplied as 0.5 mg in 1.0 mL PBS/NaN₃. Store at 2-8°C.
- The biotin (BIOT) conjugate is supplied as 0.5 mg in 1.0 mL PBS/NaN₃. Store at 2-8°C.
- The R-phycoerythrin (PE) conjugate is supplied as 0.1 mg in 1.0 mL of PBS/NaN₃ and a stabilizing agent. Store at 2-8°C. Do not freeze!
- Protect fluorochrome-conjugated forms from light. Reagents are stable for the period shown on the label if stored as directed.

Warning

Some reagents contain sodium azide. Please refer to product specific (M)SDS.
