

Goat F(ab')₂ Anti-Mouse IgG₃, Human ads

| Cat. No. | Format | Size |
|----------|----------------------|---------|
| 1102-01 | Purified (UNLB) | 0.5 mg |
| 1102-02 | Fluorescein (FITC) | 0.5 mg |
| 1102-08 | Biotin (BIOT) | 0.5 mg |
| 1102-09 | R-phycoerythrin (PE) | 0.25 mg |

FLISA plate was coated with purified mouse IgG₁, IgG_{2a}, IgG_{2b}, IgG₃, IgM, and IgA. Immunoglobulins were detected with serially diluted Goat F(ab')₂ Anti-Mouse IgG₃, Human ads-FITC (SB Cat. No. 1102-02).

Description

| | |
|-------------------------|---|
| Specificity | Reacts with the heavy chain of mouse IgG ₃ |
| Source | Pepsin digest of Goat Anti-Mouse IgG ₃ , Human ads (SB Cat. No. 1100) |
| Cross Adsorption | Mouse IgG ₁ , IgG _{2a} , IgG _{2b} , IgM, and IgA; human immunoglobulins and pooled sera; may react with immunoglobulins from other species |

Applications

Quality tested applications include –

ELISA
FLISA
FC¹⁻¹⁷

Other referenced applications include –

ICC^{3,18}

Working Dilutions

| | | |
|--|--|--------------------------------|
| ELISA | BIOT conjugate | 1:5,000 – 1:10,000 |
| FLISA | FITC conjugate | 1:200 – 1:400 |
| | PE conjugate | ≤ 1 µg/mL |
| Flow Cytometry | FITC and BIOT conjugates | ≤ 1 µg/10 ⁶ cells |
| | PE conjugate | ≤ 0.2 µg/10 ⁶ cells |
| For flow cytometry, the suggested use of these reagents is in a final volume of 100 µL | | |
| Other Applications | Since applications vary, you should determine the optimum working dilution for the product that is appropriate for your specific need. | |

For Research Use Only. Not for Diagnostic or Therapeutic Use.

Handling and Storage

- The purified (UNLB) antibody is supplied as 0.5 mg purified immunoglobulin in 1.0 mL of borate buffered saline, pH 8.2. *No preservatives or amine-containing buffer salts added.* Store at 2-8°C.
- The fluorescein (FITC) conjugate is supplied as 0.5 mg in 1.0 mL of PBS/NaN₃. Store at 2-8°C.
- The biotin (BIOT) conjugate is supplied as 0.5 mg in 1.0 mL of PBS/NaN₃. Store at 2-8°C.
- The R-phycoerythrin (PE) conjugate is supplied as 0.25 mg in 1.0 mL of PBS/NaN₃ and a stabilizing agent. Store at 2-8°C. **Do not freeze!**
- Protect fluorochrome-conjugated forms from light. Reagents are stable for the period shown on the label if stored as directed.

Warning

Some reagents contain sodium azide. Please refer to product specific (M)SDS.
